Supplemental applicants differ based on business structure (see MRA instructions for more detail).
2. Legacy Detroiter applicants who do not yet have an approved location may be granted a provisional license for 12 months.
3. This notarized attestation (document of verification) is required to submit a Step 2 establishment license with the State MRA.
4. Do not submit a Step 2 application unless the proposed marijuana establishment will be ready to pass an inspection by the State MRA and the Bureau of Fire Services (BFS) within 60 days of Step 2 establishment license application submission.
